

PROJECT NOTES DEMO | 10 MINUTES

Luxury Listing Brochures, Generated in Seconds.

An AI product for Silicon Valley sellers — live on Hugging Face, instrumented with LangSmith, built by a Compass REALTOR who lives the workflow.

Jason Lim | Compass | jasonlimrealty.com | Pitch to investors + class demo

Luxury marketing is stuck in Word docs and Canva chaos.

Slow

Agents spend hours assembling photos, facts, and copy for every listing brochure.

Inconsistent

Brand voice drifts. One listing looks premium. The next looks like a flyer.

Not productized

No URL to brochure pipeline. No observability. No scale.

URL in. Luxury brochure out.

01

Paste Compass URL

RapidAPI scrapes photos + facts from compass.com

02

Compose brochure

Editorial layout, stats, neighborhood map, lifestyle, agent CTA

03

Edit and Print/PDF

Swap photos, fill facts, export Letter PDF for sellers

Watch it happen on the Space.

<https://jasonnlim-listing-brochure-studio-jason-realty.static.hf.space>

- Open the HF Space (hard-refresh) — paste a compass.com/homedetails/ URL + RapidAPI key
- Hit Generate — scraped Compass photos + facts compose the magazine brochure
- Scroll: Hero, Stats, Gallery, Google Map neighborhood, Features, Agent CTA
- Edit brochure: reorder photos / upload MLS shots / fill missing baths and sqft
- Print / PDF — enable Background graphics — seller-ready Letter brochure

Built to ship. Built to observe.

Frontend

React + Vite + TypeScript. Tailwind + Framer Motion. Print CSS to Letter PDF. Editable photo and facts panel.

Data / APIs

Compass RapidAPI (PullAPI). Deep photo URL extraction. Google Maps embed. Example photo fallback + notices.

Platform

Hugging Face Space (static). GitHub iterate fast. Session-only API keys. Jason Lim brand system.

Every brochure run = a trajectory you can debug.

LangSmith traces the full agent path — not just the final PDF.

1 Intake

URL + RapidAPI key

2 Scrape

Compass property JSON

3 Extract

Photos, beds, baths

4 Compose

Brochure + LLM polish

5 Human edit

Photos / facts overrides

6 Export

Print / PDF + feed

What LangSmith unlocks

- Trace runs: latency, failed scrapes, empty photo arrays, LLM prompt/response pairs
- Compare trajectories: demo vs live Compass URL — fix the step where quality drops
- Eval sets: brochure quality scores + regression when expanding to multi-agent copy

Real estate x AI — owned by someone in the deal.

Distribution

Every listing is a demo. Every seller meeting is a funnel. jasonlimrealty.com is the brand...

Workflow wedge

Start at brochure, expand to CMA narrative, AI estimate, listing launch kits.

Trust moat

Licensed Compass agent (DRE #02444964) building for peers — not generic SaaS from afar.

Platform ready

HF for demos + LangSmith for quality — investor-grade instrumentation from day one.

From brochure MVP to listing OS.

Near-term

LangChain/LangGraph + LangSmith traces on every run. LLM luxury copy polish grounded in listing facts. MLS/IDX photo sync + batch brochures.

Product

AI Estimate narrative module (jasonlimrealty.com/sell). Seller portal: share brochure link + open-house one-pager. Team mode: brokerage brand kits.

Scale

Official portal APIs beyond Compass RapidAPI. Mobile capture to instant marketing pack. Marketplace of brochure templates for luxury niches.

Shipped. Not slideware.

HF Space

Public luxury brochure studio — Compass import, Google Maps, Edit brochure, Print/PDF

Brand

Jason Lim | Compass | DRE #02444964 | jasonlimrealty.com visual system

Honesty

Compass RapidAPI only (documented). Example photos if scrape returns empty.

Next instrument

LangSmith trajectory traces on compose / LLM polish path

THE ASK

Help us turn every listing into a brand moment.

- Design partners: Silicon Valley agents and teams to pilot brochure to seller packs
- Technical: LangSmith workspace + eval budget for trajectory quality loops
- Capital / advisors: real-estate-tech operators who have scaled agent tooling

We are not asking permission to automate mediocre flyers. We are building the luxury listing brochure layer — and tracing every

Let's generate the next listing before the open house.
